70-74	C	65-69	C-	62-64	D+	58-61	D	55-57	D-	0-54	E

Expectations:

Attend class regularly, and be on time. Complete all homework assignments on time. Read the textbook. Ask questions. If this class is too easy, take the COMPASS test. It is free the first time, and \$10 each additional time. You can take the test up to 3 times. If this class is too hard, seek the resources available to you. There is tutoring, computer labs, Supplemental Instruction, Online Math Tutoring, Student Support Services, etc... Turn cell phones off during class. NO CHEATING. Advanced notice is required if you are going to miss a test. No makeup tests will be given without advance notice (and it needs to be a good excuse). Assignments can be emailed in on time if you are going to be late or absent.

Assignments:

Your first assignment is to check the web page given above, complete problems from section 1.1 (plus other problems assigned in class) and email me your responses with an email that you will check often enough for me to use. You will turn in the answers to your first homework assignment in this email because I need your email in order to send you announcements, bulletins, etc... All the suggested homework problems are posted on this web page, and I will be telling you which ones will be due as we finish the sections.

Any student requiring accommodations or services due to disability must contact Services for Students with Disabilities (SSD) in room 181 of the Student Services Center, 626-6413. SSD can also arrange to provide course materials (including this syllabus) in alternate forms if necessary.
